

SAP Procure to Pay Basic Training

Contents

Introduction	5
Unit 1: SAP Business Process Overview – Procure to Pay	7
Procure to Pay.....	7
Demonstration: Procure to Pay.....	8
Exercise: Procure to Pay.....	56
1. Create Material Master	56
2. Create Vendor Master	58
3. Create Info Record	59
4. Run Materials Requirements Planning	60
5. Convert Planned Order to Purchase Requisition – MRP List/Stock Requirements List.....	61
6. Approve the Purchase Requisition	63
7. Assign a Source of Supply to a Purchase Requisition	64
8. Create a Purchase Order from a Purchase Requisition	65
9. Goods Receipt	66
10. Invoice Receipt	67
Unit 2: Enterprise and Organizational Structure	69
Definitions of Enterprise Structure Values	69
Company Code.....	69
Plant.....	69
Storage Location.....	71
Definitions of Organizational Structure Values.....	73
Purchasing Organization	73
Master Data and Enterprise Structure.....	74
Unit 3: Master Data	75
Material Master.....	75
Key Fields in the Material Master	76
Demonstration: Display Material Master.....	77
Demonstration: Create Material Master.....	96
Exercise: Create Material Master	97
Vendor Master.....	98
Key Fields in Vendor Master.....	98
Demonstration: Display Vendor Master	99

Demonstration: Create Vendor Master	108
Exercise: Create Vendor Master	108
Information Record	109
Key Fields in Information Record	109
Demonstration: Display Information Record	110
Demonstration: Create Information Record	115
Exercise: Create Information Record	115
Unit 4: Consumption Based Planning	117
Overview of Consumption Based Planning	117
Consumption Based Planning Procedures	119
Reorder Point Planning	119
Forecast Based Planning	120
Time Phased Planning	121
Directing Consumption Based Planning with Material Master Data	122
Planning Process	133
Checking the Planning File Entries	133
System Calculations for Net Requirements and Lot Sizing	137
Planning Run	140
Parameters for the Planning Run	140
Evaluating the Planning Run	142
Forecasting	146
Demo and Exercise: Consumption Based Planning Using Forecasting.....	151
Check the Material Master Settings for MRP and Forecasting	151
Execute the Planning Run	160
Review the Results of the Planning Run	161
Convert a Planned Order to a Purchase Requisition	162
Summary	163
Unit 5: Purchasing	165
Overview of Purchasing	166
Purchasing Master Data	168
Material Master: Purchasing View	168
Vendor Master: Purchasing View	171
Info Record: Purchasing Screens	173
Purchasing Document Types	176
Purchase Requisitions	177
Purchase Orders	181
Outline Agreements	183

RFQ/Quotations	185
Optimized Purchasing	186
Source Determination	187
Automatically Create Purchase Orders from Purchase Requisitions ...	189
Condition Types	190
Demonstration and Exercise: Create and Test Condition Record.....	192
Release Strategy	197
Demonstration and Exercise: Create Purchase Requisition and Release Purchase Requisition	197
Summary.....	201
Unit 6: Inventory Management	203
Overview of Inventory Management	204
Transactions to Post Goods Movements.....	204
Movement Types	205
Integration with Other SAP Modules:	205
Goods Movements	206
Goods Receipt	207
Goods Issue.....	209
Stock Transfer.....	212
Transfer Posting.....	213
Demonstration and Exercise: Goods Receipt for Purchase Order	213
Special Stocks.....	216
Subcontracting Stock and Subcontracting Process.....	216
Consignment Stock and Consignment Process	220
Summary.....	220
Unit 7: Logistics Invoice Verification.....	221
Overview.....	222
Posting an Incoming Invoice	223
Demonstration: Entering Invoice.....	223
Demonstration: Reverse Invoice Document	226
Exercise: Entering Invoice	227
Document Parking.....	228
Invoice Blocking	229
Manual Blocking.....	230
Automatic Blocking based on Variance	231
Demonstration: Automatic Blocking Based on Item Value	232
Demonstration: Removing a Block from an Invoice.....	234

Evaluated Receipt Settlement235
 Summary236
