

Inventory Management

Contents

Introduction	7
Unit 1: Inventory Management Business Process Overview	9
Stock Overview via Stock Requirements list and Stock Overview.....	11
Demonstration: Stock Overview via Stock Requirements List	11
Demonstration: Stock Overview via Stock Overview Transaction.....	16
Purchase Order for Stock Materials	22
Demonstration: Purchase Order for Stock Materials	23
Goods Receipt for Purchase Order	25
Demonstration: Goods Receipt for Purchase Order	25
Goods Receipt – Other.....	28
Demonstration: Goods Receipt – Other	28
Stock Transfer	31
Demonstration: Stock Transfer	31
Goods Issue to Scrap.....	37
Demonstration: Goods Issue to Scrap.....	37
Inventory Management Business Process Overview Exercise.....	40
Step 1: Stock Overview via Stock Requirements list and Stock Overview	40
Step 2: Purchase Order for Stock Materials	41
Step 3: Goods Receipt for Purchase Order	42
Step 4: Goods Receipt – Other.....	43
Step 5: Stock Transfer	44
Step 6: Goods Issue to Scrap.....	45
Unit 2: Inventory Management Enterprise Structure	47
Definitions of Enterprise Structure Values	47
Client.....	48
Company Code.....	48
Plant.....	48
Storage Location.....	50
Demonstration: Plant and Storage Location Configuration.....	53
Configuration of Plant	54
Configuration of Storage Location	62
Exercise: Plant and Storage Location Configuration	65

Demonstration: Plant Parameters Configuration for Inventory Management	66
Exercise: Plant Parameters Configuration for Inventory Management...	72
Unit 3: Inventory Management Master Data	73
Key Fields in the Material Master	74
Demonstration: Create a Material Master	74
Exercise: Create a Material Master	111
Unit 4: Inventory Management Goods Movements	113
Integration with Other SAP Modules	114
Overview of Goods Receipts, Goods Issues, Stock Transfers, and Transfer Postings	115
Movement Types	116
Goods Movements	116
Goods Receipt.....	116
MIGO Navigation	123
Demonstration: MIGO Navigation	123
Optional Exercise: MIGO Navigation	135
Material Documents	136
Demonstration: Material Document Display	136
Optional Exercise: Material Document Display	140
Reversal Transactions	141
Demonstration: Cancel a Material Document	141
Optional Exercise: Cancel a Material Document	143
Unit 5: Inventory Management Goods Receipts	145
Goods Receipt Using Inbound Delivery	148
Demonstration: Inbound Delivery	150
Exercise: Inbound Delivery	162
Goods Receipt for Purchase Order	164
Demonstration: Goods Receipt for Purchase Order using MIGO_GR .	164
Goods Receipt for Unknown PO.....	171
Demonstration: Goods Receipt Unknown PO.....	171
Goods Receipt for Production Order	176
Demonstration: Goods Receipt for Production Order	176
Goods Receipt Configuration.....	180
Configuration Demonstration: Tolerance Keys	180
Configuration Demonstration: Delivery Completed Indicator	183
Configuration Demonstration: Define Screen Layout.....	186
Unit 6: Inventory Management Goods Issues	191

Goods Issue to Cost Center	193
Demonstration: Goods Issue to Cost Center	193
Goods Issue to Scrap	197
Demonstration: Goods Issue to Scrap	198
Goods Issues Configuration	203
Demonstration: Dynamic Availability Check	204
Unit 7: Inventory Management Stock Transfers and Transfer Postings	215
Stock Transfer between Storage Locations	217
Demonstration: Stock Transfer between Storage Locations using one- step stock transfer and move to blocked stock	217
Stock Transfer between Plants	222
Demonstration: Stock Transfer between Plants using 2-step stock transfer	222
Transfer Postings	229
Demonstration: Material to Material Transfer Posting	229
Unit 8: Inventory Management Movement Types	235
Overview of Movement Types	235
Configuration of Custom Movement Types	236
Demonstration: Custom Movement Type Configuration	236
Unit 9: Inventory Management Physical Inventory	257
Physical Inventory types	257
Annual Physical Inventory	257
Continuous Physical Inventory	258
Cycle Counting	258
Configuration of Physical Inventory	260
Demonstration: Configuration Settings for Physical Inventory	260
Demo and Exercise of Physical Inventory using Cycle Counting Method ..	268
Step 1: Set Cycle Counting Indicator in Material Master	268
Step 2: Creating Physical Inventory Documents	271
Step 3: Printing Physical Inventory Documents	277
Step 4: Enter Physical Inventory Results	279
Step 5: Process Inventory Differences	280
Exercise: Physical Inventory	282
Unit 10: Inventory Management Managing Special Stocks	283
Special Stocks	284
Consignment	285
Demonstration: Consignment	286
Subcontracting	301

Demonstration: Subcontracting.....	302
Stock Transfer using Stock Transport Order	314
Third-party Processing.....	317
Sales Order Stock.....	320
Project Stock.....	322
Returns	324
Return with Shipping	324
Demonstration: Return with Inventory Management – MIGO	325
Unit 11: Inventory Batch Management.....	331
Material Master Requirements.....	332
Demonstration: Material Master Requirements for Batch Managed materials	332
Batch Master Records	336
Demonstration: Batch Master Records	336
Batch Statuses.....	340
Inventory Management and Batch Management.....	341
Goods Receipts.....	341
Goods Issues	341
Stock Transfers and Transfer Postings.....	341
Batch Classification	343
Demonstration: Configuration to require batch classification.....	343
Batch Determination	345
Demonstration: Batch Determination Configuration.....	345
Batch Information Cockpit.....	348
Demonstration: Batch Information Cockpit.....	348
Unit 12: Reservations.....	349
Unit 13: Stock Determination	351
Unit 14: Inventory Management Reporting.....	353
Overview of Logistics Information System.....	353
Demonstration: Configuration of LIS	355
Standard Analysis in LIS.....	357
Demonstration: Standard Analysis.....	361
Exercise: Standard Analysis	368
Early Warning System	370
Demonstration: Creating and Reviewing an Exception.....	371
Exercise: Early Warning System – Create and Execute an Exception Analysis	382
Flexible Analysis	384

Demonstration: Creating an Evaluation for Flexible Analysis..... 384
Demonstration: Executing an Evaluation for Flexible Analysis 395
Exercise: Create Evaluation and Execute Flexible Analysis 397
