

Mastering Materials Management

Contents

Materials Management – Introduction	7
Unit 1: Overview of Materials Management	9
Demo Overview:	9
1. Display Material Master	10
2. Display Vendor Master	11
3. Display Info Record	12
4. Prepare Materials Requirements Planning (MRP) for a Single Item ..	13
5. Convert Planned Order to Purchase Requisition – MRP List/Stock Requirements List	14
6. Approve Purchase Requisition	15
7. Assign Source of Supply to Purchase Requisition	16
8. Convert Purchase Requisition to Purchase Order	17
9. Goods Receipt	18
10. Invoice Receipt	19
Procure to Pay Exercise:	20
1. Create Material Master	20
2. Create Vendor Master	22
3. Create Info Record	23
4. Run Materials Requirements Planning	24
5. Convert Planned Order to Purchase Requisition – MRP List/Stock Requirements List	25
6. Approve the Purchase Requisition	27
7. Assign a Source of Supply to a Purchase Requisition	28
8. Create a Purchase Order from a Purchase Requisition	29
9. Goods Receipt	30
10. Invoice Receipt	31
Unit 2: Enterprise Structure and Organizational Structure	33
Definitions of Enterprise Structure and Organizational Structure Values	33
Client	33
Company Code	33
Plant	34
Storage Location	35
Warehouse Number	36

Storage Type.....	37
Shipping Point	37
Definitions of Organizational Structure Values	38
Purchasing Organization	38
Sales Organization	40
Distribution Channel	41
Division	41
Business Area	42
Configuration Demonstration and Exercise	43
Configuration of Plant.....	43
Configuration of Storage Location.....	47
Configuration of Purchasing Organization	48
Unit 3: Material Master	51
Key Fields in the Material Master	51
Configuring the Material Master.....	70
Selecting Fields to Populate the Material Master.....	70
Material Types.....	76
Maintaining Company Codes for Materials Management	83
Defining Material Status	84
Demonstration: Configuring Material Master:	86
Create field reference for custom material type	86
Copy material type to create new material type.....	86
Hide Material Master field	87
Unit 4: Vendor Master	91
Views Available in the Vendor Master	91
Vendor Master Key Fields	91
Demonstration: Configuring the Vendor Master	101
Configuring Account Groups	101
Configuring Partner Determination.....	106
Exercise: Vendor Master Configuration.....	108
Configure Account Group.....	108
Configure Partner Determination	108
Create New Vendor.....	108
Unit 5: Information Record.....	111
Key Fields in the Info Record.....	111
Configuring the Info Record.....	117
Configuring Screen Layout for this Transaction.....	117

Configuring Text in the Info Record	120
Unit 6: Consumption Based Planning	121
Overview of Consumption Based Planning	121
Consumption Based Planning Procedures	123
Reorder Point Planning.....	123
Forecast Based Planning.....	124
Time Phased Planning.....	125
Directing Consumption Based Planning with Material Master Data	126
Planning Process	141
Checking the Planning File Entries.....	141
System Calculations for Net Requirements and Lot Sizing	145
Planning Run	148
Parameters for the Planning Run	148
Evaluating the Planning Run	150
Forecasting.....	154
Configuring Consumption Based Planning	159
Maintaining Plant Parameters.....	159
MRP Groups	163
Special Procurement Types.....	165
MRP Types	167
MRP Lot-Sizing Procedure	171
Demo and Exercise	175
Configure Plant for Consumption Based Planning	175
Check the Material Master settings for MRP and Forecasting	176
Execute the Planning Run	178
Review the Results of the Planning Run	179
Convert a Planned Order to a Purchase Requisition.....	180
Unit 7: Purchasing	181
Overview of Purchasing	182
Purchasing Master Data.....	184
Material Master: Purchasing View	184
Vendor Master: Purchasing View	186
Info Record: Purchasing Screens	188
Purchasing Document Types	192
Purchase Requisitions	193
Purchase Orders.....	198
Outline Agreements	200

RFQ/Quotations	202
Configuring Purchasing Document Type	203
Demonstration and Exercise	212
Optimized Purchasing	213
Source Determination.....	214
Automatically Create Purchase Orders from Purchase Requisitions ...	216
Configuration of Purchasing	217
Condition Types	218
Procedure for Defining a Condition Type	220
Demonstration and Exercise	238
Release Procedure	240
Step 1: Determine the Corporate Purchasing Approval Matrix	240
Step 2: Configuration.....	242
Step 3: Security	262
Step 4: Transport Classes and Characteristics.....	262
Inventory Management	265
Overview of Inventory Management.....	266
Transactions to Post Goods Movements	266
Movement Types.....	267
Integration with other SAP modules:.....	267
Plant Parameters Configuration.....	268
Goods Movements.....	270
Goods Receipt.....	271
Goods Issue	273
Stock Transfer	276
Transfer Posting	277
Configuration of Custom Movement Types	278
Demonstration: Custom Movement Type Configuration	279
Exercise: Custom Movement Type Configuration.....	293
Special Stocks	295
Subcontracting Stock and Subcontracting Process	295
Consignment Stock and Consignment Process.....	299
Valuation and Account Determination	301
Overview	301
Balance Sheet Valuation	302
LIFO Valuation	304
FIFO Valuation	309

Lowest Value Determination	312
Account Determination Configuration	318
Demonstration: Account Determination Configuration	319
Exercise: Account Determination Configuration	335
Unit 10: Logistics Invoice Verification	337
Overview.....	338
Posting an Incoming Invoice	339
Demonstration: Entering Invoice.....	339
Demonstration: Reverse Invoice Document	341
Exercise: Entering Invoice	343
Document Parking.....	344
Invoice Blocking	345
Manual Blocking.....	346
Automatic Blocking based on Variance	347
Automatic Blocking based on Item Value	349
Removing a Block from an Invoice	351
Evaluated Receipt Settlement.....	352
Unit 11: Materials Management Logistics Information System	355
Overview of Logistics Information System	356
Configuration of LIS.....	358
Standard Analysis in LIS	360
Standard Analysis Demonstration:	364
Standard Analysis Exercise	369
Early Warning System.....	371
Demonstration: Creating and Reviewing an Exception	371
Exercise: Early Warning System – Create and Execute an Exception Analysis.....	381
Flexible Analysis.....	382
Demonstration: Creating an Evaluation for Flexible Analysis.....	382
Demonstration: Executing an Evaluation for Flexible Analysis	391
Exercise: Create Evaluation and Execute Flexible Analysis	393
