### **Basis: GuiXT: An Introduction**, by Adam Tysman

GuiXT allows you to modify what your users see on their SAP screens without having to change the underlying ABAP code; it's all done with some straightforward commands that you enter into "scripts" in reference to any or all screens within a transaction. Here is an introduction to help you get started with this valuable tool.

---

### **FI/CO: Credit Management in SAP® FSCM Module: Part II - Integration with A/R and SD**, by Anurag Barua

Anurag Barua continues his series on Credit Management in SAP Financial Supply Chain Management with a deeper dive into integration with Accounts Receivable and Sales and Distribution. He gives us a look at the multiple BadIs that are available to help make all this happen and walks us through the configuration activities to get the integration activated.

---

### **NetWeaver: How to Reconfigure a Central SLD to Local SLD How to Reconfigure a Central SLD to Local SLD**, by Bijay Shrestha

At some point in your SAP career, chances are you're going to have reconfigure your System Landscape Directory (SLD) from a Central SLD to a Local SLD in a complex NetWeaver landscape. This article steps us through that process.

---

### **Solution Manager: Solution Maintenance with SAP® Solution Manager and ARIS**, by Rajiv Jha

In a previous article, "Solution Blueprint with SAP® Solution Manager and ARIS". Rajiv Jha provided details on how can we use Solution Manager and ARIS integration during the project phase of an implementation. In this article, he rounds out the cycle with the focus on how SAP can be integrated with ARIS during production support, post-go-live.

## **Variant Configuration: An Overview of Variant Configuration**, by Jocelyn Hayes

This is an excerpt from ERPtips University's Variant Configuration course workbook. This course is being offered for the first time publicly in our Fall 2010 lineup in Boulder, Colorado. The book is over 400 pages of concepts, demonstrations, and hands-on exercises. This excerpt introduces the module. You can view the full course description and Table of Contents [here](#).

---

## **Training: Training Development Based on Library of Lessons**, by AbduNaser Shhub

See how one training expert implemented a library of training objects that streamlined the training development process and saved the company time and money. If you have your own in-house training program, this is a concept worth exploring.

---

...Continued from Laura's message...

*We offer training on over [50 different SAP topics](#), taught by experienced field consultants. You may contact [Jocelyn Hayes](#) if you are interested in onsite training in any of our courses.*

*Meanwhile, our sister publication, [JDEtips](#), is celebrating ten years of success this summer. With your continued loyalty, we look forward to repeating that celebration in the not-so-far distant future for ERPtips.*

*Ready for some "funny yet true" comic relief? Check out our [Top 10 Signs Your Company Needs Additional SAP Training](#).*

*Sincerely,*

*Laura Donovan*
