*Displaying Data Quickly and Easily via Gantt Charts: Guide for SAP Developers*

Zaidi continues his discussion of data display models with an informative evaluation of the use of Gantt chart data displays. He presents specific examples of the Line Item internal tables & Element internal tables that are used to structure & store the Gantt chart display code in the ABAP programs. With exacting code segments & detailed graphics, Rehan illustrates how to set the structure of Gantt chart displays for extrapolating & delivering data to satisfy the user`s unique needs. Drawing on his usual “make the developer`s life easier” approach, Rehan develops both broad &
